

The below info is for **interfacility transports only** with a suspected and/or COVID+ patient. If your patient is on a ventilator, please ensure a viral filter/HME is in place.

St. Luke's University in Bethlehem

- While en route with your patient, please contact the hospital operator at 484-526-4000. Advise the operator you are transporting a suspected or positive COVID patient from "x" facility and need security to meet you at the loading dock. We ask for at least a 20 min window to ensure security is in place and has appropriate PPE.
- A security escort will meet you at the loading dock

St. Luke's Allentown

- If transporting a patient to the ICU, park and enter via the ambulance entrance, use elevators 11 or 12 to access the ICU.

St. Luke's Anderson

- Please enter the hospital through the new helipad entrance
